

Dahlias for Wait List

The following Dahlias are in my garden. The ones with names have been introduced to the Dahlia Society by Mike and Kathy Iler. The ones that have a name that starts with NJ and ends with a number is my attempt to turn Mike and Kathy's coding gibberish into something I can work with. (The coding keys were lost when Mike passed.)

The NJ dahlias fall into two catagories. Either they are a named variety that has been introduced to the society and I am trying to figure out what that name might be, or they are seedlings that have not been introduced yet. Now that I've been growing dahlias for 3 years, I think I have figured out that some of the seedlings are garbage and need to hit the compost pile. And some of the pictures look like garbage because the season came to an end before I was able to get "good" pictures of everything. I'll try again this summer.

If you see something in here that you really like and would like a start of, please let me know.

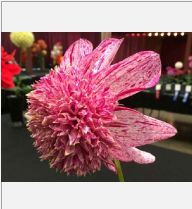

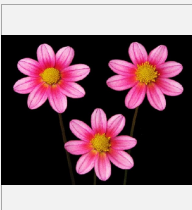

If you see something in here and you know it's real name, then PLEASE, PLEASE, PLEASE, let me know.

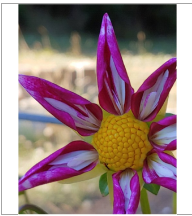

The easiest way to communicate with me is via email:

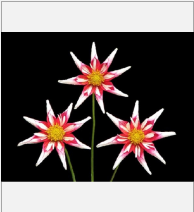

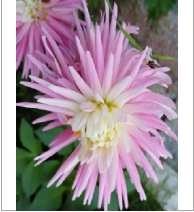

info@rileyblossom.com

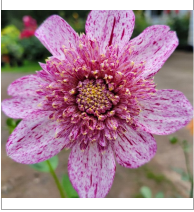

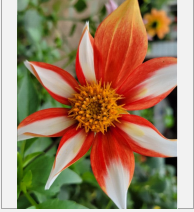

Thank you,

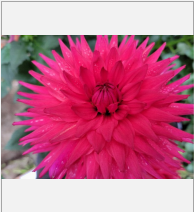

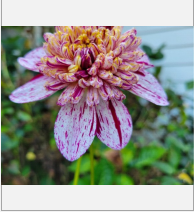

Janet
