

Dahlias for Wait List

The following Dahlias are in my garden. The majority of these dahlias were hybridized by Mike Kathy Iler. The ones with names have been introduced to the Dahlia Society. The ones that have a name that starts with NJ (NJ for Neal Janet) and ends with a number is my attempt to turn Mike and Kathy's coding gibberish into something I can work with. (The coding keys were lost when Mike passed.)

The NJ dahlias fall into two catagories. Either they are a named variety that has been introduced to the society and I am trying to figure out what that name might be, (I learned the hard way that name tags can fade in the sun) , or they are seedlings that have not been introduced yet. Now that I've been growing dahlias for 4 years, I think I have figured out that some of the seedlings are garbage and need to hit the compost pile. And some of the pictures look like garbage because the season came to an end before I was able to get "good" pictures of everything. I'll try again this summer.

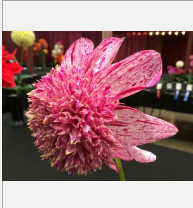

If you see something in here you really like and would like a start of, please let me know.

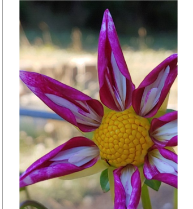

If you see something in here and you know it's real name, then PLEASE, PLEASE, PLEASE, let me know.

The easiest way to communicate with me is via email: info@rileyblossom.com

Happy Growing!
Janet
